Summary

I have always been obsessed with technology, specifically Apple products. Over the years, I have always been the guy people would turn to if they had a problem with their device or wanted to know what Apple product to buy. I have developed the patience and kindness necessary to provide tech support to my community. I am a hardworking, responsible, friendly individual who loves to help people and solve problems. Additionally, I have been creating films for over 10 years and am excited to continue to do so in the future.
